

Dear friend of Brophy.

We are currently seeking employment opportunities for Brophy students. As you may know, we have a significant number of students who receive scholarships and are only able to attend this school because of these awards. As part of these financial aid packages, many of the boys are provided with the opportunity to work on campus, through the Work Study Program. However, as another part of this program, students also have the ability to seek employment outside the school. It is for this reason, among others, that we have elected to provide a forum for matching students in this program with potential employers. The program is called the Brophy Job Referral Initiative.

This program will enable students to go on to the secure Brophy website and search for potential job opportunities. It will also provide the employer with a free and trustworthy way of advertising jobs online, to a select group of students. If you choose to provide such an opportunity for a Brophy student, it will be advertised first to members of the Work Study Program, and then, after a period of two weeks, to all Brophy students.

The benefits that these jobs will provide are significant. This program will further a student's personal and professional development and provide them with valuable work experience. If you are able to provide employment opportunities, we ask that you fill out the Job Description Form located on the Brophy Dad's Club website at <http://www.brophydadsclub.org/studentjobs.html>. Then please e-mail it to [studentjobs@brophyprep.org](mailto:studentjobs@brophyprep.org). We will post these positions on the secure website immediately.

If you have any questions regarding this program please get in touch with the Dad's Club contact, Mark Jones, at [mark.jones@levredgetech.com](mailto:mark.jones@levredgetech.com) or Steve Smith, Brophy's Work Study Program Director, at [ssmith@brophyprep.org](mailto:ssmith@brophyprep.org).

Thank you in advance for providing these young men with this valuable opportunity.

Sincerely,

Steve Smith  
Work Study Program Director  
Brophy College Preparatory
